

STUDENTS OF THE COMPUTER
SCIENCE DEPARTMENT PRESENT

AppalHack 2025

Event day: April 12th-13th

Dear Potential Sponsors,

AppalHack is a 24-hour hackathon run by the students of the Computer Science department at Appalachian State University. AppalHack assists students in establishing a community of shared passions for learning, problem-solving, and software development. We are expecting this year to be our largest *yet* with more sponsors and participants than ever before!

As a sponsor, AppalHack is a wonderful place to reach out and network with potential recruits. Many of Appalachian State University's finest coders participate and present newly learned information during the demoing process. This is an excellent way to identify the diversity in skill sets among our students.

Below is an overview of the sponsorship deck. Please review the various tiers and let us know if you are interested in becoming an official AppalHack sponsor. The tiers are simply guidelines; AppalHack is eager to work with you and can create custom packages/prices tailored to your company's needs.

We hope to hear back from you soon and look forward to working with you to make AppalHack an excellent event this semester!
